Conflict Minerals Reporting Policy

It is TCCI's policy to comply and have zero tolerance in the enforcement of the conflict minerals guidelines regarding gold, tin, titanium, and tungsten. Suppliers need to review the supply chain and determine the source of the smelters to ensure that the smelters are on the approved list of smelters provided by the conflict minerals platform. WE REQUIRE ALL TCCI SUPPLIERS TO CONFORM. TCCI does not support the use of resources from any area identified by the conflict minerals platform. This reflects the requirements from Congress concerning revenues obtained from the mining and transportation of conflict minerals, financing the ongoing conflict in the Democratic Republic of Congo ("DRC") and the surrounding region, and the resulting humanitarian crisis.

Thank you for your Cooperation,

Dennis Flaherty
Chief Operating Officer
